

CHANNELLING 13TH May 2005

Dear One

It is some time since we have spoken about you. Mainly you are too busy with dispersing the Energy that is flowing through you at the moment. We, the Dragon Kind, are amazed at the change of your energy field and the facets and colours that you are transmuting. Yes, the 15th is an extremely valuable time to the Dragon Kind. SIN-I-BA is a symbol that carries a lot of energy. The name is also a great energy as it directs all the dragon kind to do an adjustment in their companions. On the 15th there will be a great shift in those carrying the energy of Ra-Sheeba. Some will be doing other energy work and that is fine, as they will have their energy field open ready to receive.

This is a great DNA change! None will feel the same again.

It has been a long time waiting for this great leap. Many will feel the energy "clicking" into place as the main-players will be gathered together either in physical or energetic sense. Especially Omar, Mehmett, Canan and many others who were close to the High Priestess – Kiya and Akhenaton.

You are all dearly loved
Pen Gough
