

CHANNELLING BY Damian Nola 11 January 2003

Dear Merilyn

I was guided quite out of the blue to contact you today, during a meditation - channelling, in which Isis came through very strongly. She was holding a medallion on a long silver cord, the medallion was of a dragon wrapped around an ankh and a solar disk. She assured me you would understand the imagery connected to this. I am also guided to tell you that there was a strong blue-silver energy connected to this medallion. I'm also guided to tell you that you will probably better know of me through my friend OmRa. I believe he would have sent you some of the channelled guidance I received when working with him with the Ra-Sheeba energy's earlier during the year.

In any case I hope this email finds you fabulously well and I look forward to hearing from you again soon.

In the love - light - purity and truth of spirit.

PS: This channelled message comes from Isis for you

"Priestess of the Western Isle, the land of my beloved husband Osiris, Land of Amenti - spirits of the dead, awaken to the truth of the knowledge you hold as a keeper of the sacred keys. Know that as the Ankh is the key of life, so it is the sacred womb of the Mother Goddess from which all life emerges. Gaze upon the Ankh and what do you see but the glory of the Solar Orb, the Aten flowing forth and resting upon the horizon, shedding its light upon the path that leads you home. Know that all who receive the knowing of this mystery shall be lifted into the purity of the vibration of divine truth. The amethyst (crystalline) children have been born of the higher geometries encoded within the living light energies that you have brought forth in remembrance of your own divine nature. Cherish this sacred gift that you have been given - remembered as an expression of your true divine nature. Know that its emanation is from a source more powerful, more pure, divine, loving and wise than you may ever imagine for it emanates from your own soul, from the inner light of divinity that you are, it is divine energy, energy that knows infinite potential to heal across the barriers of space, time and the illusion of separation.

Know that it comes to you from the heart of the Central Sun as an expression of the cosmic heat, the serpent or dragon fire. Know that it is the energy of the quickening, the awakening of all to their true divine nature. Know that as energy moves so it touches upon consciousness, Ra-Sheeba is NOT consciousness, it is energy and yet it touches upon consciousness and so it has the potential to release the patterns of belief (consciousness) that holds us within separation. For true healing to occur our consciousness must change, come into alignment with divinity, for it is consciousness that gives form to energy, that gives rise to our reality, or perceived conceptions of such. You are growing more with each day in your understanding of the gift you have been given. Ra-Sheeba is a very pure and extremely powerful selection of the available universal energy that also touches upon and brings through divine energy (universal energy is the energy of manifested form, divine energy emanates from a source beyond manifestation, and therefore is unbound - limitless in its potential).

Know that it is from light that the Great Goddess Isis was born and yet it is from her womb that light emerges, they are one and the same, inexplicably tied into one cosmic heart-beat. Understand and know that there is no separation between the two and within this lies the key. In eternal love for you our daughter
